

PASSION BRACKET

Use Bracketing to Figure Out Your Passion.

Start by thinking of eight things that you really love. Fill them into the outermost slots (slots 1–8).

Next, start comparing the pairings. Consider slots (a) and (b) carefully, between them which do you love more? Write your answer on slot (i).

Compare (c) and (d), (e) and (f), and (g) and (h) the same way. Now compare slots (i) and (j). Write your answer in slot (m). Keep going in this fashion until you have one answer in the very center.

Compared to the other 7 ideas you started with, this should be the one you are most passionate about!

YOUR PASSION BRACKET:
